

## School Holiday Planner

Use this planner to organise the school holidays (this one is for the summer but you can also adapt it for the other school holidays). Plan in work, childcare and activities (holidays, days out, outings with friends). You can book tickets ahead, ensure friends are available and make a meal plan so that food shopping and prep isn't a pain. Plan 1 core thing per day leaving room for down time and to get tasks done.

**How to:** Print this planner, add dates, individual's names and activities according to your plans.

Colour code and merge cells as you wish to show the everyone's movements.

\* = Work or Holiday for the adults
